*A local program is being introduced for Indians who want to learn about and play Australian Football in a comfortable environment.*

This program will consist of skills sessions and social matches and provide a direct pathway into the Surrey Park Football Club (EFL Div 4) for players who want to play Australian Football competitively. Eligible players will be considered for selection in the Indian national side to compete at next year's International Cup of Australian Football.

Females are also encouraged to attend, as numerous non-playing roles exist.

The information sessions will explain the program layout, reveal dates and times and are an opportunity to ask questions.
